Subject Sale of Verizon Hawaii to The Carlyle Group

I am an employee of Verizon Hawaii and am concerned about the sale to The Carlyle Group. I am disappointed that there will be no public hearings but instead, only letters and emails will be accepted. This is an unusual approach to a very critical issue that could affect not only the employees of Verizon Hawaii but the entire state of Hawaii. Because of the significance of this sale and the potential effect on the people of Hawaii, the best course of action is to open the process for public participation on a face-to-face basis to encourage open dialogue. I urge you to reverse the decision of the PUC and conduct public hearings to listen to the concerns of the citizens of Hawaii.

Reginald Cui
